**Key:**

"Load" = Number of truck-fulls of material dumped. (The yardwaste/brush dumpsite does not provide weights.)

"Number of possible Brush/Yard Accounts" = The number of residences with trash/recycling cart pickup multiplied by the number of scheduled brush and/or yardwaste pickups that year.

Note: During weeks that they pick up both yardwaste and brush, the truckloads are filled primarily with yardwaste, so they take the truckloads and split them between yardwaste and brush (with more being allocated for yardwaste).
